Our Mission

The Pennsylvania Nursing Workforce Coalition (PA-NWC) aims to advance a nursing workforce that will lead healthcare transformation by cultivating strategic partnerships with diverse populations and organizations.

Sponsorship & Pledge Support of the PA-NWC

The Pennsylvania Nursing Workforce Coalition (PA-NWC) is committed to strengthening Pennsylvania's nursing workforce through collaboration, innovation, and shared resources. Sponsorship and pledges play a vital role in advancing this mission. By partnering with PA-NWC, sponsors gain meaningful visibility and engagement opportunities while contributing to initiatives that support current and future nurses.

Why Support Our Work?

This collaboration is mutually beneficial. Sponsors and pledges are recognized as leaders invested in workforce development, and PA-NWC is able to further its impact through strategic partnerships that align with our shared goals of improving health outcomes and advancing equity across communities.

Sponsorship & Pledge Opportunities Overview

PA-NWC offers three types of opportunities designed to meet different engagement goals:

Annual Sponsorship: Designed for organizations seeking ongoing visibility and strategic partnership across PA-NWC's full portfolio of programs, events, and communications throughout the year.

Program & Event Opportunities: Designed for organizations seeking targeted engagement with a specific audience, initiative, or event. Recognition is limited to the selected program or event.

Organizational Pledge or Individual Pledge (Custom Amount): The PA-NWC welcomes support from organizations and individuals who are passionate about advancing the nursing workforce. Custom contributions directly support efforts to expand access to professional development, strengthen support systems for nurses, and invest in a more equitable and resilient healthcare system across Pennsylvania.

Organizational and individual pledge supporters will be recognized on the PA-NWC website in appreciation of their commitment.
